

Region 12 ESC

July 28-30 · 9 am - 4 pm

SEATS ARE LIMITED! | **Bring your own Device**

All users are invited to attend this three-day training for a more in-depth look at the cloud-based software offered by DMAC. Each day will highlight new features and provide tips for using the applications efficiently.

DAY 1: Data, Appraisals & School Plans

- **State Assessment** – Find relevant STAAR and TELPAS reports to analyze, trend, and compare data – Generate reports related to accountability measures
- **FormWorks®** – Create custom online forms
- **T-TESS/T-PESS** – Complete the appraisal cycle
- **PlanWorks™** – Develop campus and district improvement plans

Day 2: All About Local Assessments

- **TEKScore** – Collect data and analyze results using the real-time one-click report feature in your Dashboard
- **TAG Test Item Bank** – Create quality local assessments
- **lead4ward** – Create digital tools that analyze both local and state data
- **Data Exports** – Export local and state data for further analysis

Day 3: Student Documentation & Plans

- **Student Portfolio** – Includes plans, assessment history, notes, forms, uploads and more
- **FormWorks®** – Create custom online forms
- **LPAC** – Fill out meeting paperwork, complete forms and get digital signatures
- **Rtl** – Document interventions and monitor student progress
- **PGP** – Create 4-year plans or document plans for At-Risk students
- **SSI** – Print state mandated forms and letters
