

# MAP Data in DMAC

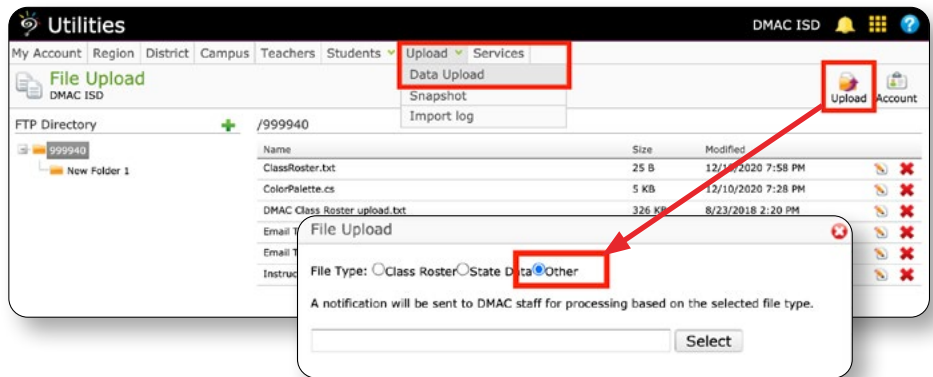

Schools have the ability to import MAP data files into DMAC. Once added, you can use the Data Exports application to analyze the information. Please use the instructions below for formatting and importing your data. If you have any questions, please contact the DMAC Help Desk via email at [support@dmac-solutions.net](mailto:support@dmac-solutions.net) or phone at 1.866.988.6777.

## Requirements:

- > File formatted using the layout from the NWEA for the **ComboStudentAssessment.csv**
- > Must include student's unique 10 digit TSDS **state ID numbers**
- > **Required Fields:** TermName, DistrictName, DistrictId, CampusName, CampusId, LastName, FirstName, LocalId, StudentStateId, Grade, Subject and Course.

## Uploading Files:

- > Open Utilities
- > Select Upload > **Data Upload**
- > Choose **Other** (not Class Roster)
- > **NOTE:** A confirmation email will be sent once your files are processed and added to your DMAC account.

## Data Exports:

- > Open Data Exports
- > Select **Campus** and/or **Grade**
- > Choose **MAP Assessments**
- > Verify **Options**
- > Click **Download**
